Computerworld Cloud Festival is the place to meet cloud Denmark

At Cloud Festival 2023, Computerworld will focus on topics such as infrastructure, compliance, sustainability, leadership, security, and management for both private and public organizations on dedicated stages from morning until evening. On these stages, researchers, keynotes, vendors, and other experts will explain, inform, and facilitate how to ensure, operate, and develop the best cloud-based solutions, businesses, and systems.

- 1.000 IT professionals over two days in Copenhagen
- More than 30 dedicated exhibitors
- Focus on:
 - Infrastructure/Architecture
 - Security and compliance
 - Sustainability
 - Public digitalization
 - Strategy

Why you should join as a partner

Computerworld Cloud Festival is the place to meet cloud Denmark.

At Computerworld Cloud Festival 2023 in Copenhagen, you get the opportunity to meet over 1,000 cloud professionals over two days. They will be looking for systems and solutions that can make their businesses safe, compliant, sustainable and efficient.

They will be looking for knowledge and advice on the increasingly complex IT landscape where more and more elements are required to interact. At the same time, they are faced with more and more compliance regulations and requirements.

Combined with new requirements for the green transition, today's IT decision-makers need knowledge sharing on these challenges as well as an introduction to the latest technologies.

These are just some of the problems that the participants at Computerworld Cloud Festival come to get answers to.

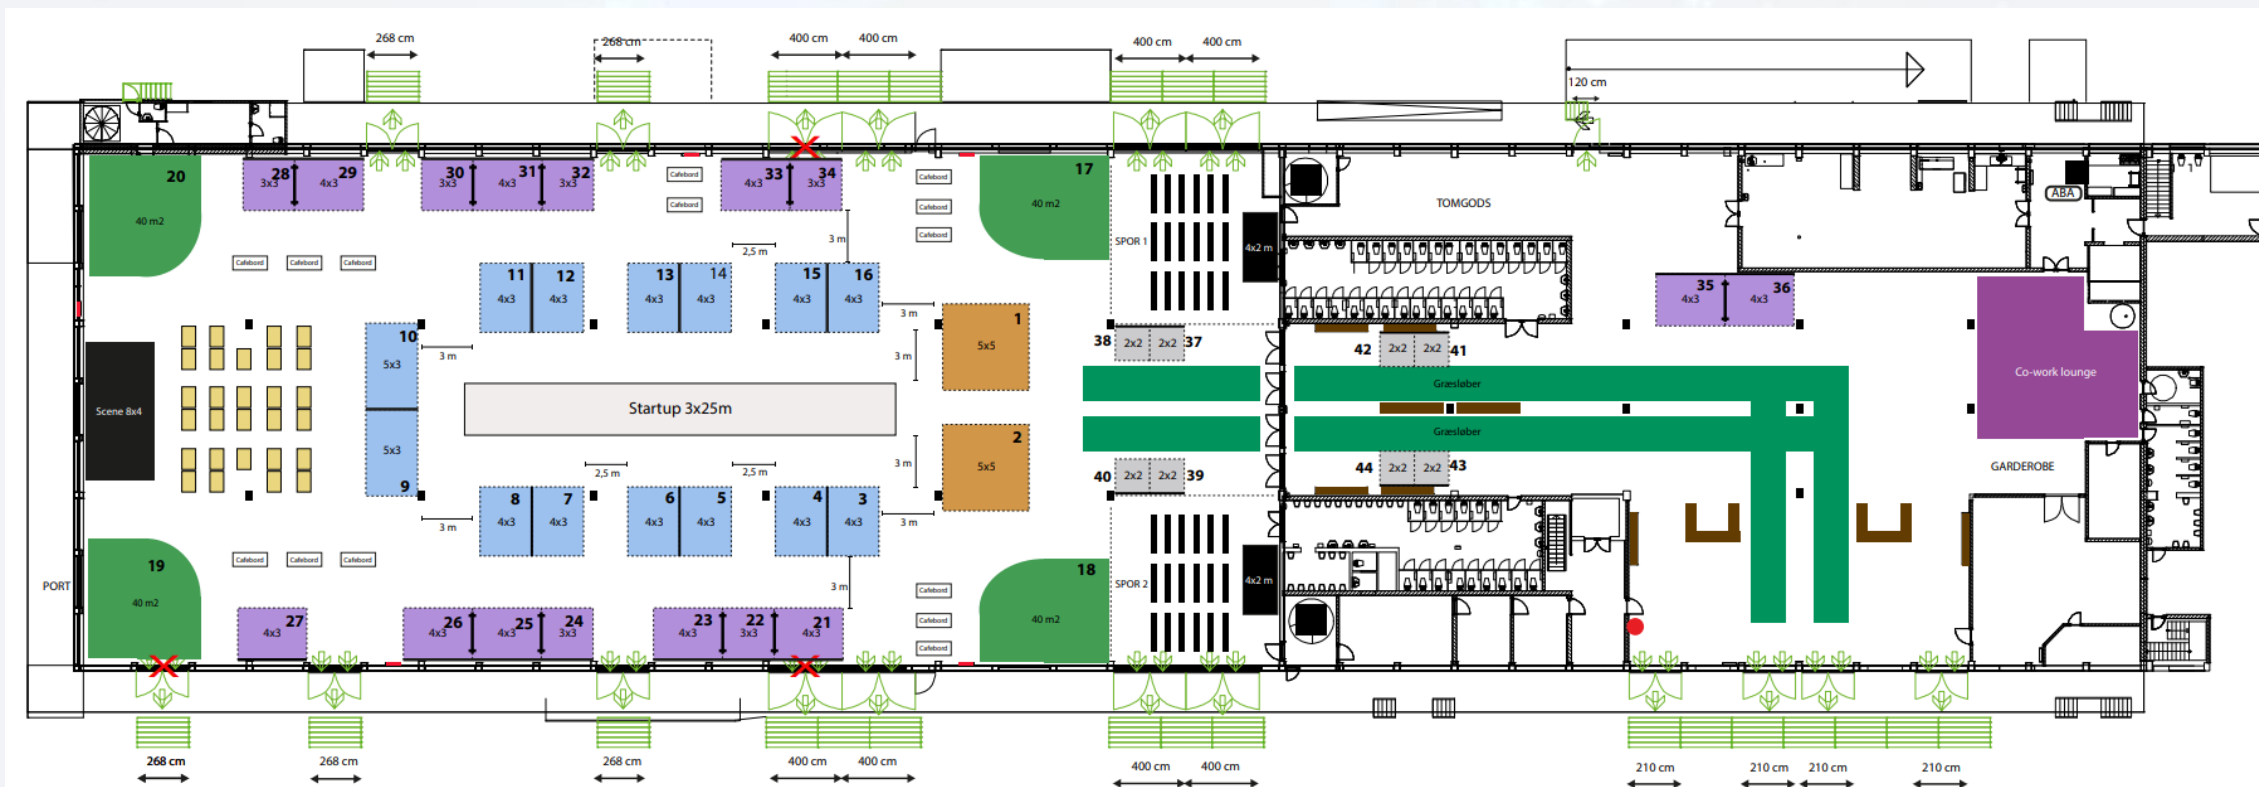

- As a partner at Computerworld Cloud Festival, you will be able to influence future system and supplier choices for the participants' IT landscape.
- Find loads of new leads and new customers among the 1000 attending IT professionals.
- Increase your company's brand awareness through online and physical branding.
- Build your credibility through expert presentations on the festival stages.
- Strengthen your collaboration and network with other suppliers and co-colleagues.
